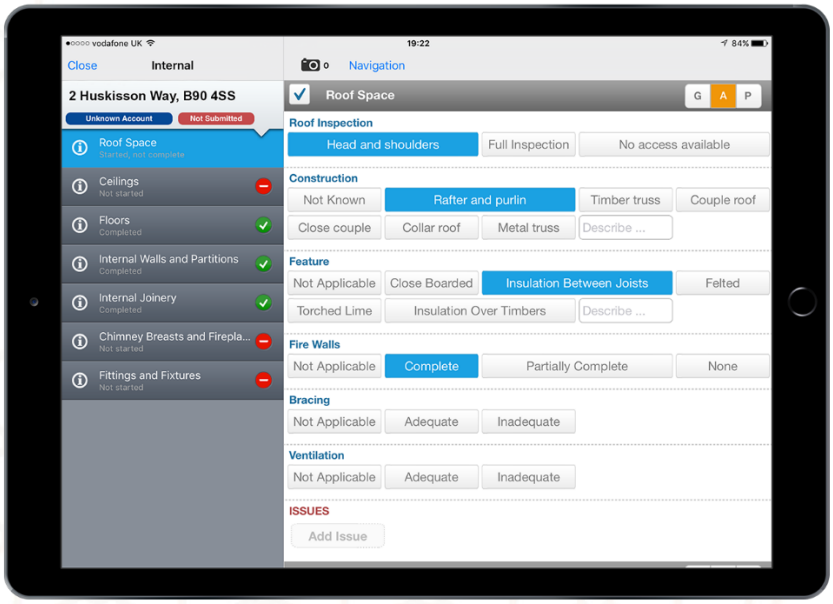
SMART Survey App

Our mobile software enables RICS Chartered Surveyors to carry out residential Mortgage Valuation Reports and RICS HomeBuyer Reports. Surveyors benefit from improved productivity, consistency, accuracy and reduced valuation risk and PI exposure, with full MVR form and lender guidance mapping, access to comparable data and electronic site note capture.



Features:

- Simple and intuitive user interface on an Apple iPad operating system.
- Full MVR form mapping.
- Full Lender Guidance rules mapping.
- Inbuilt access to Rightmove SCT comparable data.
- On-site data capture including electronic/audio notes, photos, plans/drawings and annotation.
- Online consistent electronic site note storage creating a defensible claims database.
